

Guidelines and Rubric for Weekly Meeting 04/27/2023 (5th week)

Tommy Nguyen, Yue Shi

5 points

1. (2 pts) *Previous Meeting Items* List action items from the previous meeting and update the status.

- Implemented a rough greedy abstract version of broadcast, scatter, and gather
- Unit test cases were made for testing out the application of the MPI
- Modified point to point to include a buffer

2. (2.5 pts) *Future Plan* List short-term action items with a target deadline.

- Continuation of the collective communication operations and their implementations
(no deadline i.e. ongoing)
- Optimization of the collective operations with the autocomm and colcomm framework
(need to be creative here and come up with something entirely new)

3. (0.5 pts) *Problems* List any problems, including communication and technical problems.

- No problems at the moment. Any questions were asked and resolved
- Resolved communication problems
